

Interstate 90 Superstructure Replacements (EB & WB) over
Woodland, Cordaville, Parkerville, and Flanders Roads
Southborough-Westborough | Project File No. 608335

MassDOT Board of Directors
July 2020

Acceler-8 Overview

- 8 Bridges were built in 1955 with Deck Reconstruction in 1986 and Painting in 1994.
 - Numerous Minor and Severe deficiencies identified with Priority or ASAP Urgency
- Acceler-8 program will use accelerated bridge construction methods to limit closures/impacts to roadway customers, using an approach similar to Commonwealth Ave Bridge replacement project.
 - 6 Superstructure Replacements
 - 2 Full Bridge Replacements
- Replacements scheduled ahead of the I-90/495 Interchange Reconstruction Project (which is scheduled for advertising in
